Cupressocyparis 'Castlewellan'

JOAN'S SAGE

Salvia involucrata 'Joan'

Showy large heads of sugar-pink flowers. And it is hard to catch "Joan" out of flower. Because she blooms practically all year round. Including in the middle of winter in milder areas.

'Joan' is a tough hardy girl for long hot summers. But she also tolerates humidity with the heat very well. And is reported to be more tolerant of summer wet than many of her cousins. As well as being more tolerant of frost than many others, and reliably able to regenerate from the rootstock after a hard winter.

'Joan' also has large, attractive, fresh green foliage. And can be used to make an informal backdrop hedge, or a solo taller central plant.

1.2m. High approx. x 1.2m. Wide approx.

..... And who is Joan? Joan Eyles helped to make this outstanding, but previously unnamed sage, popular in the 1990's. Gardener Joan generously shared her cuttings and reports about bone hardiness and long flowering. Until "Joan's Sage" became indispensable for all gardeners who love hardy and long blooming plants.

Native birds & bees will love you

Your local native honey-eating birds also thank you for the constant supply of nectar-rich flowers virtually all year round. While the bees are besotted too.

Great plant for making a show

Salvia involucrata 'Joan' is upright growing and rounded – so it makes a great background or even a hedge for smaller plants and ground-covers. Or as a garden centrepiece to carry the show on for most of the year. Large, fresh-green leaves make a pretty backdrop to any other flowers.

Great tolerance for hot & dry periods, but also to humidity

Salvia 'Joan' is highly recommended for our sub-tropical gardeners, or those with summer humidity, such as in Sydney and further north. But 'Joan' is also suitable for gardeners in more Mediterranean climates. As it also thrives in long, hot, dry summers. And can tolerate frosts better than most.

But if you live in an area with heavier frost, then plant Salvia 'Joan' beside taller trees and shrubs to give some extra overhead cover. 'Joan' is perfectly happy in dry shade for part to half of the day, as well as in full blazing sun.

Water-wise Salvia involucrata 'Joan'

'Joan' is a Salvia involucrata. All the Salvia involucrata family members are water-wise. So Salvia 'Joan' will happily potter along with just some occasional water assistance during long, dry periods.

But must be well drained soil

Salvia involucrata 'Joan' needs well drained soil and resents wet feet. Though she does tolerate summer rain well and better than most.

She is happiest in acid to neutral pH soil, without too much fertilizer. 'Joan' performs best a little on the lean and mean side, and not overfed.

Trick for pruning Salvia 'Joan'

All Salvia involucrata hybrids should be pruned hard after flowering (or whenever you can catch them out of flower – and this is difficult with 'Joan').

So, harden your heart and cut all the large woody stems right back to ground level in early spring. Just leaving any fresh shoots that may be emerging.

Or if you can't bear the temporary bare spot – then cut half the clump back to the ground first, then chop the other half of the clump later. So, you never have a bare spot without colour. The foliage of 'Joan' is an asset all year round.

And what is an involucre Salvia?????

An "involucre" in botanical talk is a top-knot or a knob at the top of the flower spike.

And it is particularly pronounced and lovely in most hybrids and descendants of Salvia involucrata.

So, on Salvia involucre 'Joan' you have a furry, velvety, deeply coloured top knot on every flower stem.

Dis Delightful Plants ordering details, terms & conditions

Our goal is to provide you with relevant and useful information to assist you in the selection and purchase of our products. We include flower colour and season, type of plant, size guide and preferred growing conditions. However, if you still feel uncertain whether a plant is suitable for your location or requirements please contact us or conduct further research online.

We guarantee our plants to arrive at your door in premium, ready-to-plant condition. If they're not, we offer a money-back guarantee if you contact us within 48 hours.

When your plants arrive we recommend soaking them in a seaweed solution such as Seasol to help them recover from any stress incurred during transport. (Apply at packaging recommended rates.)

All orders are to be paid in full prior to dispatch.

Unless otherwise stated, we have a minimum order of ten plants. This can comprise of any assortment of sizes and varieties from our current stock list. If the

unexpected unavailability of one or more ordered varieties results in your order falling below the minimum required order value we will contact you to authorise a substitute.

If contact cannot be made and less than 15% of your order is affected we will select the most suitable substitute. If it is over 15% we will hold off sending the order until contact can be made.

We hope you enjoy browsing through our huge variety of plants.

We welcome feedback on how we can improve; please email di@disdelights.com.au.

We'd love to hear how Di's Delightful Plants is helping your garden grow; join our Facebook and Instagram communities to share your stories, or come and say hello to us at an event near you.

Here's to gorgeous gardens!
