Our Trip to Peru.

Jane's experience.

There are not too many places that fill every expectation. South America did just this with colour, food, textiles and good generous people. It was a very exciting experience myself and three friends Di, Clive and Linda. Firstly, Linda (fellow garden traveller) and I went to the Galápagos Islands, where wonderful animals have no fear of humans. Here they are respected and well conserved. There are lots of unusual ones of which I had a few must sees: the blue footed booby birds and giant tortoises. I was not let down as there were plenty to see.

Next we met with Di and Clive at Iquitos and continued into the Amazon jungle with its display of animals and plants. I love seeing plants in their place of origin so this was amazing opportunity: A great system of tributaries, lagoons, rivers and wilderness. Walking and boating through lush vegetation, watching huge spiders, piranha fishing and searching for Caimans in the dusk. Looking through enormous rainforest trees supported by buttress roots with liana vines in a ropey tangle for monkeys and sloths high in the canopy with blue and yellow macaws flying through the branches. My highlight was the Victoria amazonica, those giant water lilies over a metre wide that tempt you to walk on.

Peru is filled with truly awesome sights: Fuchsias with their visiting humming birds, mosses and lichens like velvet growing on vertical cliffs, bromeliads clinging to branches and electric wires plus lots of orchids in a range of colours. My greatest thrill was seeing Cantua, (Sacred Flower of the Incas) with different forms in red, pink, black and yellow. The other thrill was walking through Machu Picchu a great wonder of the new world. Consisting of supreme craftsmanship in rocks and stone from the 15th century. A town on a cliff side set in one of the worlds wild places.

What can I say - a trip of our lifetimes!

As Jane says above we had a fantastic trip to the Amazon, Machu Picchu and the Sacred Valley. The food, people, plants and animals were amazing. We stayed at the start of the Amazon in tree houses 15m above the river. Not the ones of our childhood but luxury with comfy bed, chairs, en-suite and a tree trunk in the middle. The highlight was the chance to meet and hold a sloth (Pablo) at a local village. They are just the cutest animals.

Clive and I had a few days on our own before the Amazon, in Lima. A clean and modern city where we were on the thirteenth floor of the hotel when a 6.1 earthquake occurred 20km off the coast. The building shook and rumbled and it was quite scary. We all left the hotel but the locals were chilled and back to normal in an hour or so. We were uneasy for a few hours.

We all went down to Cusco in southern Peru at 3400-3800m which brought on some altitude sickness. Unpleasant and scary at first but keeping calm and not being too active kept it to a minimum. We went to the Sacred Valley and visited some local villages. Then to Machu Picchu for another highlight.

We saw lots of interesting plants – local and exotic, tried some interesting and tasty as well as some not so nice food, cuddled a few alpacas and drank lots of Pisco Sours. Overall, as Jane says a trip of a lifetime.

Dis Delightful Plants ordering details, terms & conditions

Our goal is to provide you with relevant and useful information to assist you in the selection and purchase of our products. We include flower colour and season, type of plant, size guide and preferred growing conditions. However, if you still feel uncertain whether a plant is suitable for your location or requirements please contact us or conduct further research online.

We guarantee our plants to arrive at your door in premium, ready-to-plant condition. If they're not, we offer a money-back guarantee if you contact us within 48 hours.

When your plants arrive we recommend soaking them in a seaweed solution such as Seasol to help them recover from any stress incurred during transport. (Apply at packaging recommended rates.)

All orders are to be paid in full prior to dispatch.

Unless otherwise stated, we have a minimum order of ten plants. This can comprise of any assortment of sizes and varieties from our current stock list. If the unexpected unavailability of one or more ordered varieties results in your order falling below the minimum required order value we will contact you to authorise a substitute.

If contact cannot be made and less than 15% of your order is affected we will select the most suitable substitute. If it is over 15% we will hold off sending the order until contact can be made.

We hope you enjoy browsing through our huge variety of plants.

We welcome feedback on how we can improve; please email di@disdelights.com.au.

We'd love to hear how Di's Delightful Plants is helping your garden grow; join our Facebook and Instagram communities to share your stories, or come and say hello to us at an event near you.

Here's to gorgeous gardens!
